

AMBREEN BHALOO

MSED, CPCC, FEA

FOUNDER & CEO

Testimonial:

"I still remember our very first session over 4 years ago when Ambreen asked: What are you waiting for? I was able to pivot my career weeks after I started my sessions with Ambreen. Her ability to help me visualize my success, and then build a pathway is empowering, motivating and fulfilling. I really enjoy our sessions. Her perspective is holistic – professional, family, business, personal, spiritual, intellectual, relationships – she has helped me grow and improve in all aspects. If you want to pivot your life and career to achieve your dreams with real and tangible support, I would highly recommend that you work with Ambreen. What are you waiting for?"
– AU Ali, Sr Wealth Advisor, Portfolio Manager

With 20+ years of leadership, education and board experience in the private enterprise world, Ambreen partners with organizations to support their leaders to rise to their full potential to maximize results and success.

Coming from an entrepreneurial family, Ambreen has contributed to her family's midsize organization as a Leader and on the Board of Directors. She has supported the succession of leadership within the education division of the company, moving from an owner-operated business to professionally (non family) managed. In the process, Ambreen has developed expertise in change management, adoption of technology, and cultural alignment. From these experiences, Ambreen has learned to thrive in challenging and changing environments. She remains focused, authentic, and passionate in her goal to support individuals and teams to grow and achieve success.

When Ambreen's family returned to their country of origin, Kenya, for business, Ambreen consulted with an NGO bringing a humanitarian lens to the corporate world in the telecom industry. This Kenyan adventure provided Ambreen and her family with rich cultural experiences and rare opportunities for growth. In both Kenya and Canada, Ambreen has served and continues to volunteer on a number of boards, including many in the community and the family enterprise space. After returning to Canada, Ambreen pivoted to intrapreneurship, tapping into her lifelong passion for personal development and growth. She founded her own firm providing leadership consulting, coaching, and family enterprise advisory.

Ambreen's focus is on partnering with organizations on leadership and talent development, finding solutions within coaching and training. She also engages with global entrepreneurs, executives, and leaders to elevate them to their highest potential and support them in reaching their major goals. She earned her Master of Education (MEd) at the University of Pennsylvania and her coaching certification (CPCC) from the Co-Active Training Institute (CTI). Ambreen has her Family Enterprise Advisor (FEA) designation and will complete her PCC credential with the International Coaching Federation in 2025.

Services include: optimized coaching engagements, talent development workshops/training, and elevating manager & leader effectiveness.
